

Question	Marking Guidance	Mark	Comments
02.1	0.22;	1	
02.2	1. Uptake in flask G much greater than in flask F ; 2. Showing use of ATP in flask G ; 3. Sodium ion concentration in flask G falls to zero; 4. Showing uptake against a concentration gradient;	4	
02.3	1. (Uptake of sodium ions occurring by) <u>facilitated</u> diffusion; 2. Equilibrium reached/sodium ion concentrations in solution and in cells the same;	2
