

8 Which rows show the chemical groups present in the biological molecules listed?

|   | biological molecule | presence of carboxyl (COOH) groups | presence of two or more hydroxyl (OH) groups |
|---|---------------------|------------------------------------|----------------------------------------------|
| 1 | $\beta$ -glucose    | no                                 | yes                                          |
| 2 | glycerol            | no                                 | no                                           |
| 3 | fatty acid          | yes                                | no                                           |

**A** 1, 2 and 3      **B** 1 and 2 only      **C** 1 and 3 only      **D** 2 and 3 only
