

6 Fig. 6.1 is a diagram of the cell surface membrane of a squamous epithelial cell lining an alveolus.

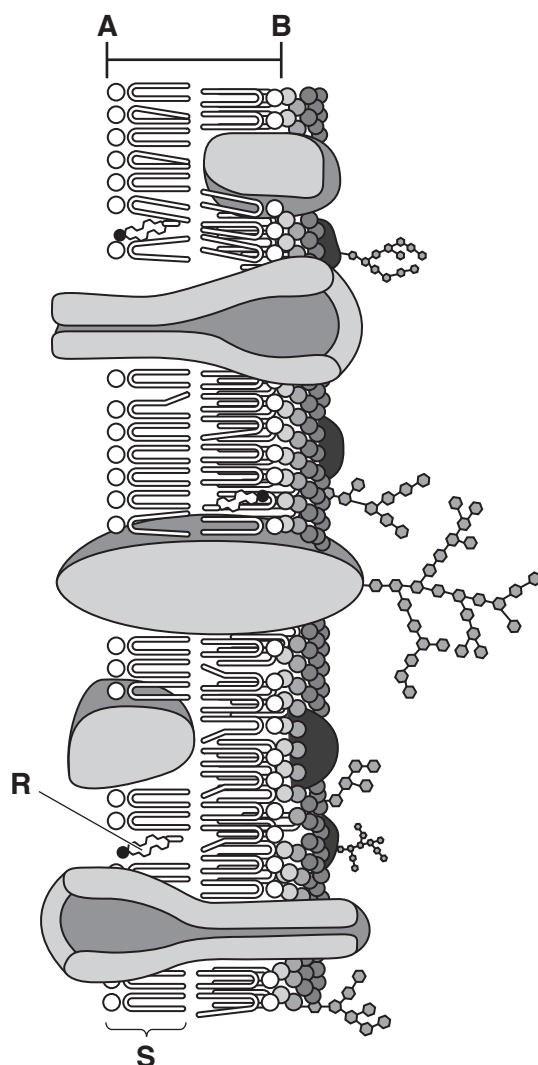

Fig. 6.1

- (a) (i) A student measured the line **A–B** and calculated the actual width of the membrane in Fig. 6.1.

State the unit that the student should use for the actual width of the membrane.

..... [1]

- (ii) With reference to Fig. 6.1, state how to identify the external surface of the cell surface membrane.

.....

..... [1]

(b) Name **R** and **S** in Fig. 6.1 **and** describe their roles in the membrane.
