

- 4 The diagram shows a graduated slide, with divisions of 0.1 mm viewed using an eyepiece graticule.

Pollen grains were grown in a sugar solution and viewed using the eyepiece graticule.

Diagram 1 shows the pollen grains at the start. Diagram 2 shows the pollen grains after four hours.

What is the growth rate of the pollen tubes?

- A** $5\mu\text{mh}^{-1}$ **B** $10\mu\text{mh}^{-1}$ **C** 5mmh^{-1} **D** 10mmh^{-1}
