

Answer **all** questions in the spaces provided.

Do not write  
outside the  
box

**0 1 . 1** Structures **A** to **E** are parts of a plant cell.

- A** Cell Wall
- B** Chloroplast
- C** Nucleus
- D** Mitochondrion
- E** Golgi apparatus

Complete **Table 1** by putting the correct letter, **A**, **B**, **C**, **D** or **E** in the box next to each statement.

**[3 marks]**

**Table 1**

| Statement                                                      | Letter |
|----------------------------------------------------------------|--------|
| Has stacked membranes arranged in parallel and contains DNA.   |        |
| Is made of polysaccharide.                                     |        |
| Is an organelle and is <b>not</b> surrounded by two membranes. |        |

**0 1 . 2** Human breast milk is produced and secreted by gland cells. These gland cells have adaptations that include many mitochondria and many Golgi vesicles. The milk contains a high concentration of protein.

Explain the role of these cell adaptations in the production and secretion of breast milk.
