

Question	Marking Guidance	Mark	Comments
01.1	1. Push hard – spread/squash tissue; 2. Not push sideways – avoid rolling cells together/breaking chromosomes;	2	Neutral – to see cells clearly
01.2	No (no mark) Yes (no mark) 1. Chromosomes/chromatids are (in two groups) at poles of spindle/at ends of spindle; 2. V-shape shows that (sister) chromatids have been pulled apart at their centromeres/that centromeres of (sister) chromatids have been pulled apart;	2	1. Do not accept 'ends of cell'
01.3	28.8 / 29;	2	If incorrect, allow: $\frac{6}{200} \times 960 = 1 \text{ mark}$
