

- 2 The diagram shows an eyepiece graticule and part of a stage micrometer scale as seen using $\times 100$ magnification.

Which is the correct method for calculating the value of one eyepiece graticule unit in micrometres (μm)?

- A divide 100 by 0.1 then multiply by 1000
- B divide 100 by 0.1 then multiply by 1000 divided by 100
- C multiply 0.1 by 1000 then divide by 100
- D multiply 0.1 by 1000 then divide by 100 then divide again by 100
