

23 Some antibiotics kill prokaryotes by binding to RNA polymerase.

What effect will this have on protein synthesis?

- A** Codons on mRNA will be unable to hydrogen bond to complementary anticodons on tRNA.
- B** Condensation reactions joining RNA nucleotides will not take place to form mRNA.
- C** DNA will not unwind and unzip to allow for base pairing with RNA nucleotides.
- D** Free RNA nucleotides will not base pair to exposed bases on the DNA template strand.
