

- 7** The concentration of reducing sugar in a solution can be found if an observational measurement is compared to a standard.

Which observational measurement could be used to estimate the concentration of reducing sugar in an unknown solution?

- 1 the colour of the solution after 20 minutes
- 2 the time for the first colour change to occur
- 3 the rate of formation of solid particles

**A** 1, 2 and 3      **B** 1 and 2 only      **C** 2 only      **D** 3 only
