

- 31** The graph shows the oxygen dissociation curves of haemoglobin from two species of mammal, S and T.

Which statements could explain the difference in the oxygen dissociation curves of species S and species T?

- 1 Species T has a lower haemoglobin concentration in its red blood cells than species S.
- 2 The haemoglobin in species T has a lower affinity for oxygen than the haemoglobin in species S.
- 3 Species T lives at higher altitudes than species S.

A 1, 2 and 3 **B** 1 and 2 only **C** 2 only **D** 3 only
