

18 Which row correctly shows the transport processes for which ATP is needed?

|   | exocytosis | facilitated<br>diffusion | osmosis |
|---|------------|--------------------------|---------|
| A | ✓          | ✓                        | x       |
| B | x          | ✓                        | ✓       |
| C | ✓          | x                        | x       |
| D | x          | x                        | ✓       |

**key**

✓ = ATP is needed

x = ATP is **not** needed
