- (b) The graph shows the net carbon fixation in a plant over a period of 24 hours.

- (i) Calculate the rate of decrease of net carbon fixation at 12 00 hours.

Include units in your answer.

(3)

Answer.....

- (ii) Suggest an explanation for the decrease in net carbon fixation between 12 00 hours and 13 00 hours.

(3)

[illegible]

(iii) Suggest why the net carbon fixation was negative before 05 00 hours and after 19 00 hours.
