

- 20** Plant cells with the same water potential in their cytoplasm were each put into one of three different concentrations of sugar solution, 10%, 5% and 2.5%.

The cells were left for 50 minutes and then observed using a light microscope.

Which statements are correct?

- 1 Cell Y had a lower water potential than the sugar solution it was put into.
- 2 Cell Z was put into the 10% sugar solution.
- 3 Cell Z had a less negative water potential than the sugar solution it was put into.

A 1, 2 and 3 **B** 1 and 2 only **C** 1 and 3 only **D** 2 and 3 only
