

- 27** Three samples of liquid were taken from different locations in a plant and tested to measure the concentration of four solutes. The results are shown.

sample	concentration of solute / mol m ⁻³			
	sucrose	nitrate ions	amino acids	magnesium ions
1	652	0.14	41	3.4
2	0.12	7.1	7.2	1.1
3	433	0.6	68	3.7

Which samples have been taken from phloem sieve tube elements?

- A** 1, 2 and 3 **B** 1 and 2 only **C** 1 and 3 only **D** 2 and 3 only
