

Question	Marking Guidance	Mark	Comments
01.1	1. Equilibrium reached; 2. Allow for expansion/pressure change in apparatus; 3. Allow respiration rate of seeds to stabilise;	3	1. Accept equilibrate 3. Ignore seeds acclimatise
01.2	1. Optimum temperature/temperature for normal growth of seeds; 2. (Optimum temperature) for enzymes involved in respiration;	2	
01.3	1. Oxygen taken up/used by seeds; 2. CO ₂ given out is absorbed by KOH (solution); 3. Volume/pressure (in B) decreases;	3	
01.4	0.975/0.98;	2	If incorrect, 0.26 × 6 / or incorrect numbers divided by 1.6 for 1 mark
