

- 6 The electron micrograph shows an organelle found in some cells of many multicellular organisms.

Which row shows structures that are expected to be present in cells that contain this organelle?

|          | cell wall | centrioles | plasmodesmata |
|----------|-----------|------------|---------------|
| <b>A</b> | x         | ✓          | x             |
| <b>B</b> | ✓         | x          | x             |
| <b>C</b> | x         | ✓          | ✓             |
| <b>D</b> | ✓         | x          | ✓             |

key

✓ = expected to be present

x = **not** expected to be present
