

(a) Fig. 8.1 is a diagram of a chloroplast.

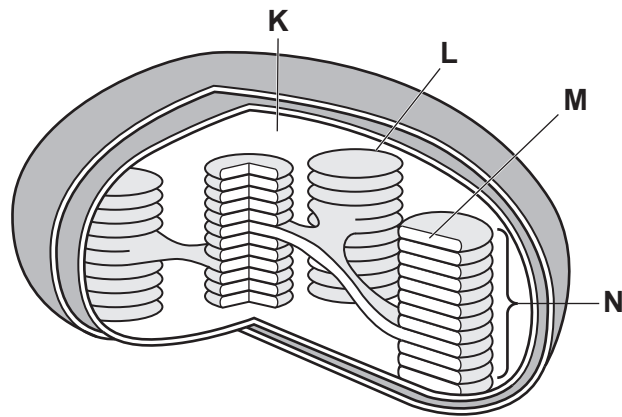

Fig. 8.1

Using the letters **K–N**, complete Table 8.1.

Each letter may be used once, more than once, or not at all.

Table 8.1

	letter
high concentration of protons	
location of photosynthetic pigments	
site of light-independent stage	
site of light-dependent stage	

[4]

(b) Chlorophyll *a* is the main photosynthetic pigment in plants.

Describe the role of other photosynthetic pigments found in plant chloroplasts.

.....[4]

[4]

- Fig. 8.2 is an absorption spectrum of an extract of chloroplast pigments and an absorption spectrum of whole chloroplasts.
