

- 19 Macrophages and epithelial cells (squamous, cuboid and columnar) are found in the gas exchange system.

The approximate dimensions of these cells are shown.

The surface area to volume ratio for cell W is $0.30 : 1.0$ and for cell X is $0.47 : 1.0$.

Which cells have the most similar surface area to volume ratios?

- A** W and X **B** W and Y **C** X and Z **D** Y and Z
