

2(a)(i)	<i>any two from:</i> height (of grids) above ground ; side / aspect, of tree ; age / size of tree ; type / species, of tree ; grid placed horizontally / orientated as diamond shape ;	2
---------	---	----------

Question	Answer	Marks																					
2(a)(ii)	named hazard and risk ; matching precaution ; <table border="1"> <thead> <tr> <th colspan="2">hazard and risk – 1 mark</th><th>precaution – 1 mark</th></tr> </thead> <tbody> <tr> <td>plants – leaves, bark, pollen</td><td>toxic / scratches / irritant / allergy</td><td>suitable PPE / medication / don't ingest</td></tr> <tr> <td>animals, animal waste</td><td>dangerous / allergy / bites / toxoplasmosis</td><td>medication / work in a group / travel with an expert / suitable PPE</td></tr> <tr> <td>fungi, lichen</td><td>toxic / irritant / allergy</td><td>suitable PPE / medication</td></tr> <tr> <td>inhaling fungal spores</td><td>(lung) infection</td><td>wear a mask</td></tr> <tr> <td>woods, falling branches / trees, holes, trip hazards</td><td>injury / getting lost</td><td>look where you're stepping / boots / hard hat / don't climb trees / GPS / map / travel with an expert</td></tr> <tr> <td>climbing trees (upper height grid)</td><td>injury (from trips / falls / falling branches)</td><td>use a ladder / use ropes / hard hat / training / use an expert</td></tr> </tbody> </table>	hazard and risk – 1 mark		precaution – 1 mark	plants – leaves, bark, pollen	toxic / scratches / irritant / allergy	suitable PPE / medication / don't ingest	animals, animal waste	dangerous / allergy / bites / toxoplasmosis	medication / work in a group / travel with an expert / suitable PPE	fungi, lichen	toxic / irritant / allergy	suitable PPE / medication	inhaling fungal spores	(lung) infection	wear a mask	woods, falling branches / trees, holes, trip hazards	injury / getting lost	look where you're stepping / boots / hard hat / don't climb trees / GPS / map / travel with an expert	climbing trees (upper height grid)	injury (from trips / falls / falling branches)	use a ladder / use ropes / hard hat / training / use an expert	2
hazard and risk – 1 mark		precaution – 1 mark																					
plants – leaves, bark, pollen	toxic / scratches / irritant / allergy	suitable PPE / medication / don't ingest																					
animals, animal waste	dangerous / allergy / bites / toxoplasmosis	medication / work in a group / travel with an expert / suitable PPE																					
fungi, lichen	toxic / irritant / allergy	suitable PPE / medication																					
inhaling fungal spores	(lung) infection	wear a mask																					
woods, falling branches / trees, holes, trip hazards	injury / getting lost	look where you're stepping / boots / hard hat / don't climb trees / GPS / map / travel with an expert																					
climbing trees (upper height grid)	injury (from trips / falls / falling branches)	use a ladder / use ropes / hard hat / training / use an expert																					
2(b)	$63.3(/ 100) \times 90 / 0.633 \times 90 ;$ 57 (circles) ;	2																					
2(c)(i)	there is no, difference, in the abundance of (salted shield) lichen between, exclosures and grazed areas ;	1																					

Question	Answer	Marks
2(c)(ii)	<i>any one from:</i> 1 no, significant difference, between exclosures and grazed areas, for base of tree ; or there is a, significant difference, between exclosures and grazed areas, for middle and upper parts of tree ; 2 the, percentage cover / abundance, of (salted shield) lichen is greater, as height of grid increases ; ora 3 percentage cover / abundance, of (salted shield) lichen is greater, in grazed areas (than in exclosures) ; ora	1
2(c)(iii)	<i>any two from:</i> 1 check named abiotic factor is similar (in exclosures and grazed areas) ; 2 check named biotic factor is similar (in exclosures and grazed areas) ; 3 repeat the investigation, in other years (after 2013) ;	2
