

9 Which statements about glycosidic bonds are correct?

- 1 They occur by condensation reactions between the OH groups of two molecules.
- 2 They occur only between glucose molecules.
- 3 The bonds can only be formed between carbon 1 and carbon 4 or carbon 1 and carbon 6 of adjacent molecules.
- 4 Hydrolysis of the bonds releases energy.

A 1, 2 and 3

B 1 and 4

C 2 and 4

D 3 and 4
