

3 The electron micrograph shows some cell structures.

Some cell structures are listed.

- 1 nucleolus
- 2 chloroplast
- 3 microtubules
- 4 ribosomes
- 5 mitochondria
- 6 plasmodesmata

Which cell structures can be seen in the electron micrograph?

- A** 1, 2, 3 and 4 **B** 1, 4, 5 and 6 **C** 2, 3, 5 and 6 **D** 2, 4, 5 and 6
