

- 15** The graph shows the effect of substrate concentration on the initial rate of an enzyme-catalysed reaction. The enzyme concentration is constant.

Which statement about the graph is correct?

- A** Between R and S the number of enzyme molecules is limiting the rate of reaction.
- B** Between R and S the number of product molecules is limiting the rate of reaction.
- C** Between S and T the number of enzyme molecules is limiting the rate of reaction.
- D** Between S and T the number of substrate molecules is limiting the rate of reaction.
