

Question Number	Answer	Mark
2(a)	The only correct answer is A 7.3 m^2 <i>B is not correct because the surface area is 7.3 m^2</i> <i>C is not correct because the surface area is 7.3 m^2</i> <i>D is not correct because the surface area is 7.3 m^2</i>	(1)

Question Number	Answer	Mark
2(b)	The only correct answer is C two <i>A is not correct because they both transport dissolved substances</i> <i>B is not correct because phloem transport in both directions and phloem walls do not contain lignin</i> <i>D is not correct because phloem transport in both directions and phloem walls do not contain lignin</i>	(1)

Question Number	Answer	Additional guidance	Mark
2(c)(i)	An answer that makes reference to the following point: • one (permanent) vacuole correctly labelled (1)	<u>Example of diagram</u> accept label line pointing to tonoplast  The diagram is a black and white electron micrograph showing several plant cells. A large, clear, circular vacuole is prominent in the center-left. A horizontal line points from the label 'vacuole' to the boundary of this vacuole. To the right of the vacuole, a small 'X' marks a dark, oval-shaped chloroplast. The cells are separated by cell walls, and various organelles are visible within the cytoplasm.	(1)
