.....

- (b) A scientist investigated the effect of calcium chloride concentration on pollen tube growth.

The pollen tubes were 75 μm long at the start of the investigation.

The table shows the results of this investigation.

Calcium chloride concentration / a.u.	Mean pollen tube length after 1 hour / μm
1	75
2	285
3	430
4	415
5	340
6	76
