

Question	Marking Guidance	Mark	Comments
02.1	1. Condensation (reaction)/loss of water; 2. (Between) phosphate and deoxyribose; 3. (Catalysed by) DNA polymerase;	2 max	3. Reject if DNA polymerase joins AT/GC OR complementary nucleotides/bases OR forms hydrogen bonds
02.2	Correct answer for 2 marks = 70;; Accept for 1 mark, A = 42 and T = 42 OR 420 (total bases in gene) OR 210 (bases in template strand)	2	
02.3	Histone;	1	
02.4	1. DNA helicase; 2. Breaks hydrogen bonds between base pairs/ AT and GC/complementary bases OR Breaks hydrogen bonds between <u>polynucleotide</u> strands;	2	2. Reject <u>hydrolysis</u> of hydrogen bonds
TOTAL		7
