

33 Which reactions take place in the capillaries surrounding an alveolus?

- 1 carbon dioxide + water $\rightarrow$ carbonic acid
- 2 carbon dioxide + haemoglobin $\rightarrow$ carbaminohaemoglobin
- 3 haemoglobinic acid $\rightarrow$ haemoglobin + hydrogen ions
- 4 hydrogencarbonate ions + hydrogen ions $\rightarrow$ carbonic acid $\rightarrow$ carbon dioxide + water

A 1 and 2

B 3 and 4

C 3 only

D 4 only
