

37 In a country where malaria has successfully been eliminated, an outbreak of malaria can occur years later.

What could allow this later outbreak of malaria to occur?

- 1 mosquitoes become resistant to insecticides
- 2 migration of the population due to war
- 3 malarial parasites become resistant to quinine

A 1, 2 and 3 **B** 1 and 2 only **C** 1 and 3 only **D** 2 and 3 only
