

**30** The diagram shows a capillary, some tissue cells and a lymph vessel.

Which row correctly identifies arrows 1, 2, 3 and 4?

|          | 1                    | 2                                 | 3                           | 4                           |
|----------|----------------------|-----------------------------------|-----------------------------|-----------------------------|
| <b>A</b> | diffusion of glucose | flow of water and small solutes   | diffusion of carbon dioxide | flow of tissue fluid        |
| <b>B</b> | diffusion of glucose | flow of water and plasma proteins | osmosis of water            | diffusion of oxygen         |
| <b>C</b> | diffusion of oxygen  | flow of water and small solutes   | diffusion of carbon dioxide | flow of tissue fluid        |
| <b>D</b> | diffusion of oxygen  | flow of water and plasma proteins | osmosis of water            | diffusion of carbon dioxide |
