

2(a)	any two from: 1 (same) time of the year or (same) seasons or (same) months ; 2 (same) depth of, water / sea / sponge / (sea)bed / water pressure ; 3 (same) orientation of transect ;	2
2(b)	23 or 24 ; correct working ;	2
2(c)(i)	1 any use of correct data to qualify a statement ; <i>supporting the conclusion 'human activity equals lower diversity'</i> 2 station A has highest, index / diversity or station G / thermal power station, has lowest index or natural habitat / A, B, L, have a higher, index / diversity ; <i>not supporting the conclusion 'human activity does not equal lower diversity'</i> 3 housing / D and A, have a similar index or D / housing, has a <u>higher index / (diversity) value</u> than, B / L or J and K which have the same human activity have different, beta diversity indices / diversity or <i>idea that</i> the measure of diversity used just counts number of species and not number of individuals or did not, use / calculate, Simpson's diversity index ;	3

Question	Answer	Marks
2(c)(ii)	<i>answer must be in terms of the diversity of the sponges not diversity index (data) or beta diversity</i> A 'it' for 'species diversity' I biodiversity 1 correct index data quoted to support conclusion about species diversity ; <i>any two from mp2–6:</i> <i>diversity in different locations in the bay:</i> 2 <i>idea that</i> (stations A, B, L) closest to open ocean / at the edges of the bay, have higher diversity or <i>idea that</i> (stations E, F, G, H, I, J) furthest from open ocean / within the bay, have lower diversity or in the (Algeciras) Bay the diversity is lower than the marine habitat / ora ; <i>diversity in industrial areas: (E, G, H, I)</i> 3 <i>idea that overall</i> industries / industrial activity, results in <u>lower</u> diversity ; <i>diversity in tourist areas (C, F, J, K)</i> 4 <i>idea that tourism</i> results in varied impact (on diversity) <u>and</u> qualified with suitable examples ; 5 other (stated) factor affects diversity illustrated with a suitable station ; 6 impact of, housing / D, on diversity is, similar to natural habitats / less than other stations with human activity ;	3
