

14 The diagram shows a liposome.

Liposomes can be used to move therapeutic drugs into cells of the body to treat conditions such as cancer.

Which row shows the property of a drug that could be transported in the sections of the liposome labelled 1 and 2?

	property of drug transported in location 1	property of drug transported in location 2
A	hydrophilic	hydrophilic
B	hydrophilic	hydrophobic
C	hydrophobic	hydrophilic
D	hydrophobic	hydrophobic
