

Question	Marking Guidance	Mark	Comments
09.1	1. Method of randomly determining position (of quadrats) e.g. random numbers table/generator; 2. Large number/sample of quadrats; 3. Divide total percentage by number of quadrats/samples/readings;	3	1. Ignore line/belt transect. 2. Accept many/multiple/lots but ignore several. 2. Ignore point quadrat. 2. Accept squares/frames (of a grid) for quadrats. 2. If a specified number is given, it must be 10 or more.

Question	Marking Guidance	Mark	Comments
09.2	1. Increase in variety/diversity of species/plants/animals; OR Increase in number of species/populations; 2. Provides more/different habitats/niches OR Provides greater variety/types of food;	2	1. Accept increase in biodiversity or species richness. 2. Ignore shelter/homes/environments. 2. Ignore 'more food' but accept 'more food sources'. 2. Accept 'less hostile' (environment).

Question	Marking Guidance	Mark	Comments
----------	------------------	------	----------

09.3	1. Significant (difference/decrease) with C (compared with A); 2. No significant (difference/decrease) with B and D (compared with A); 3. Reference to less than 5%/0.05 probability that difference is (less likely) due to chance OR Reference to more than 95%/0.95 probability that difference is not due to chance; 4. Species of algae not known OR Species of algae may differ (on other reefs); 5. Only done off (coast of) Florida OR Not done on other reefs;	5 max	Mark points 4 to 9 = 4 max. 1 and 2. Accept names of fish species present as alternatives to sets B , C and D . 1 and 2. Award both marks if answer states only C is significantly (different/lower). 1 and 2. 'Results are significant/not significant' disqualifies first of these marks credited. 3. Accept equal to specified probabilities.
------	--	-------	---

	6. Only done at 16 to 18 metres OR Not done (on reefs) at other depths; 7. Only 34 weeks; 8. Concrete/artificial reef could affect results/growth OR Natural reef results/growth may differ;		8. Accept any reference to composition of reef being different (from natural).
