

Question	Marking guidance			Mark	Comments
04.1		open	closed	2	One mark for each correct column General marker
	Semi-lunar valves	2	3		
	Atrioventricular valves	4	1		
04.2	(Acceptable range is) 6315.79 to 6400;;			2	Allow one mark for (SV = 120 – 40 =) 80 (cm ³) OR (1 cycle = 1.24 – 0.48 =) 0.76 (s) OR 79 / 80 (beats minute ⁻¹)
04.3	1. Contraction of ventricle(s) produces high blood / hydrostatic pressure; 2. (This) forces water (and some dissolved substances) out (of blood capillaries);			2	1. Do not accept contraction/pumping of the heart 2. Reject blood / plasma / tissue fluid forced out
04.4	Excess tissue fluid cannot be (re)absorbed / builds up;			1	The idea of excess is important Accept 'drained' for absorbed
