

9 Which features affect the tensile strength of collagen?

- 1 the helical structure of collagen chains
- 2 the small R group of the amino acids in collagen
- 3 the insoluble nature of collagen
- 4 the bonds between collagen molecules

- A** 1, 2, 3 and 4
- B** 1, 2 and 4 only
- C** 1 and 3 only
- D** 2, 3 and 4 only
